

Membership 2016

Last year we introduced a new initiative to try and address ongoing membership concerns. This proved very productive with many members embracing the incentive and encouraging a number of new affiliates. To build on this success we are continuing this approach under the same conditions and will reward members in the same manner as before.

By doing so you are helping keep your golf club alive and hopefully prospering as without members we cannot function.

The scheme operates rewarding the advocate who gets a new member, by giving them 20% off the new member subscription as a reward (table below outlines the rewards). The money is placed on the members bar card for use as they wish.
